FlexTerior™

METAL TREADS

Durable epoxy grit surface strip for long-lasting performance.

Outdoors in rugged conditions, indoors in industrial or commercial applications, FlexTerior treads offer a gripping surface strip that's made to last. Made of exterior-grade aluminum and inlaid with an epoxy and abrasive grit blend, FlexTerior treads are ideal for installation on new or existing stairs and landings and meet ADA recommendations for slip resistance.

A full metal tread system.

Flexco offers FlexTerior metal nosings, treads and flat steps to provide you a complete metal tread system. Each product is constructed of heat-treated exterior grade aluminum which is resistant to most elements of corrosion. An inlaid anti-slip epoxy color coating is colorfast and resistant to marring, scratching and chipping. Nosings are available in 4-inch depths. Treads are available in 9-inch and 11-inch tread dimensions. Flat steps are available, upon request.

- ~ Corrosion-resistant 6063T3 aluminum construction
- ~ Inlaid with durable epoxy and abrasive grit
- ~ Multiple epoxy strip color options
- ~ Double grit strip available in black and one accent color
- ~ Pre-drilled, countersunk holes

4" nosing is available with a double grit strip for traction and visibility when ascending and descending stairs.

4" NOSING DIMENSIONS

9" TREAD DIMENSIONS

11" TREAD DIMENSIONS

COUNTERSUNK HOLE SPACING

Recommended fasteners available by substrate.

Choose the metal tread that meets your exact specification.

FlexTerior treads are available in seven standard colors and unlimited custom color options. With our exceptional dual-channel face design, this allows you to create numerous color combinations.

PRODUCT DETAILS

Gauge	1/4" Overall
Depth	4", 9", Plus 11"
