Healthcare Flooring

THE SCIENCE BEHIND PROTECTING PATIENT ENVIRONMENTS.

When designing healthcare environments, the well-being of every patient and professional who will interact with those spaces should be considered—including the architects, designers, contractors and installers charged with creating them.

At Flexco we choose safer raw materials and ensure our high-performance products are easy to install and maintain. Specific to healthcare design, our flooring offers built-in hygienic properties, water and chemical resistance, improved indoor air quality, added comfort and noise absorption.

When safe, healthy spaces are your priority, know that every sourcing and manufacturing decision we make is environmentally responsible, backed by science and designed to meet healthcare design challenges.

Natural Elements Premium Luxury Vinyl Tile

EVERY PLANK AND TILE IS BACKED BY AN INDUSTRY-LEADING 20-YEAR COMMERCIAL WARRANTY.

Every layer has a purpose—to enhance wear, add comfort or add beauty. Our LVT is easy to clean and disinfect and is guaranteed to perform in heavy traffic environments.

- ~ High-quality virgin raw materials are phthalate-free
- ~ GREENGUARD Gold Certified—helps to improve indoor air quality
- ~ Durable 28-mil wear layer minimizes risk of damage
- ~ High-definition printing ensures a natural look
- ~ 48 in-demand colors and patterns

Crosswire® Woven Vinyl Flooring

THE WARMTH OF CARPET, THE PERFORMANCE OF VINYL.

Crosswire provides the warmth of carpet without the germs, allergens and dirt. It offers excellent stain, wear and chemical resistance—plus, it's easy to clean and disinfect.

- ~ Triple-defense waterproof protection for the warranted life of the product
- ~ Available in 10 on-trend colors
- ~ 20-year commercial warranty

Tuflex® Force® Sports Flooring

THE ONLY USDA CERTIFIED BIOBASED
RUBBER SPORTS FLOORING.

Tuflex Force helps improve indoor air quality and is 100% recyclable—providing a closed-loop manufacturing process. Plus, it's comfortable, quiet and cushions joints, making it ideal for physical therapy and rehabilitation environments.

- ~ The first Red List Free sports flooring*
- ~ No phthalates, no PVC, no cyanates, no formaldehyde, no tire-derived crumb rubber
- ~ Backed by a Lifetime Wall-to-Wall Warranty; won't cup, crown or buckle for the life of the floor
- ~ Exceeds OSHA and ADA recommendations for slip resistance

**As identified by the International Living Future Institute*

Distinct Designs Studio Collection

A COORDINATED APPROACH TO RUBBER FLOORING.

As the basis for the Distinct Designs Studio Collection, rubber flooring is ideal for creating coordinated and functional commercial spaces. Constructed of durable, sustainable materials, this science-backed flooring offers cushioned comfort, long-lasting performance, easy installation and maintenance and a streamlined design process.

- ~ Eight profiles, three color palettes and multiple tile, plank and sheet size options
- ~ No coatings, finishes or sealers applied or required
- ~ Specify coordinating color for wall base, stair treads, risers, stringers and landing tiles

RED LIST FREE MAKES THESE COORDINATING TREADS A SAFER BET.

Since our rubber treads can be easily installed without the use of epoxy nose filler, even the stairwells can be stylish, healthier and more environmentally responsible.

- ~ Red List Free
- ~ A wide range of colors, patterns, profiles and treads for easy coordination
- ~ Complete offering includes stair treads, risers, stringers and landing tiles

Delane® ESD Vinyl Tile

STATIC CONTROL BUILT RIGHT IN.

While other floors achieve static dissipative properties with added coatings or sprays, Flexco layers in carbon protection during the manufacturing process and includes a copper discharge system for performance-ready protection.

- ~ Lifetime Electrical Resistance Warranty
- ~ Eliminates the need for added carbon finishes or coatings
- ~ Requires only one ground point per 2,000 square feet
- ~ Withstands up to 2,500 PSI to support heavy machinery

**ESD Static Control Flooring also available in rubber tile*

Inspirations Custom Cut Designs

BRANDING AND WAYFINDING WITHOUT THE RISK OF HAND CUTTING.

Flexco precision water-jet technology allows the most detailed design to be replicated for a polished, professional floor.

- ~ Specify any size—from a single tile to your largest installation
- ~ Design is fully integrated through the thickness of the floor
- ~ Custom designs available in rubber, vinyl, LVT or sports flooring

Health Design™ Wall Base

A SEAMLESS, HYGIENIC CONNECTION PROTECTS AGAINST DIRT, GERMS AND BACTERIA.

This unique base provides a seamless connection from floor to wall—eliminating space that typically collects dirt and bacteria. It also eliminates the need for flash coving on-site for risk-free installation.

- ~ 6" high and 3" deep for maximum coverage
- ~ Heat weldable to most flooring, ensuring a smooth finish without cracks or crevices

Base Sculptures™ Profiled Wall Base System

TRADITIONAL WOOD PROFILES IN A FLEXIBLE RUBBER BASE.

This base offers the look of traditional wood profiles with enhanced performance qualities—like nick and scratch resistance. Ideal for offices, long-term care facilities and multiuse healthcare spaces.

- ~ 72 colors and 18 distinct profile options
- ~ Helps cover wall irregularities
- ~ Phthalate free and made with virgin raw materials
