**PRODUCT DESCRIPTION:** Flexco® Vinyl Stair Treads, Risers and Stringers are specifically designed for use on all interior stairs, including pan-filled concrete and wood substrates. Vinyl Stair treads are extruded and molded from a high-grade vinyl compound that is solid, homogeneous and durable. Flexco vinyl stair treads are also non-conductive and resist scuffing, gouging and most chemicals and common substances. Vinyl stair treads are ideal for indoor use in most commercial, industrial or residential applications, such as schools, hospitals, department stores, government buildings, hotels, dormitories, sports complexes, airport terminals, shopping malls and any other public or private building. Flexco Vinyl Stair Tread is formulated with Bioplasticizer and no post-consumer recycled content is used, eliminating the possibility of contamination by ortho-phthalates. These products are manufactured without the use of toxic heavy metals such as Lead, Cadmium, Chromium VI, or Arsenic and the PVC resin used is manufactured without using Mercury cell and Asbestos membranes. Flexco's Vinyl Stair Tread formulation is screened according to current authoritative lists and does not contain any substances of very high concern (SVHC) on the REACH candidate list or substances restricted under REACH.

## Section 2: Content in Descending Order of Quantity

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- Basic Inventory method with Product-level threshold.
- Nested Material Inventory method with Product-level threshold
- Nested Material Inventory method with individual Material-level thresholds

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 2.3, available on the HPDC website at: [www.hpd-collaborative.org/hpd-2-3-standard](http://www.hpd-collaborative.org/hpd-2-3-standard)
