

NEW OUTDOOR RUBBER TREADS

Premium protection.

It's never too early to safeguard exterior spaces from damaging weather and wear.

Protects against deterioration.

ENHANCED TRACTION.

- ~ Naturally water-resistant
- ~ Raised surface design disperses water so it doesn't collect on the tread, which prevents moisture from causing permanent damage
- ~ Textured design provides extra grip on wood and concrete stairs

Protects environments.

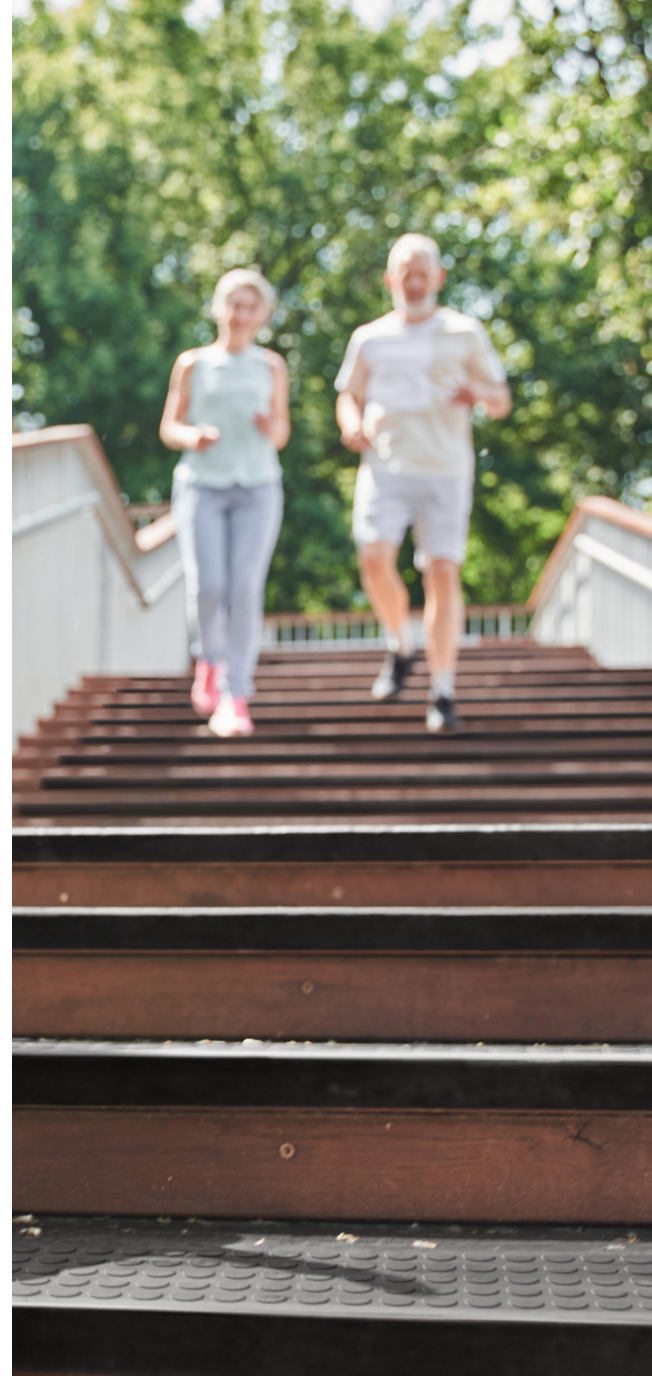

A NATURAL SOLUTION.

- ~ Naturally resistant to mold and mildew, adding enhanced stability
- ~ Red List Free and free of lead, cadmium, chromium and phthalates, lessening their environmental impact

Protects budget requirements.

A MORE ECONOMICAL OPTION.

- ~ Installing Flexco Outdoor Rubber Treads up front adds another layer of protection that will extend the life of wood or concrete stairs in parking garages and commercial spaces
- ~ Easy-to-maintain rubber treads are less expensive than metal exterior treads
- ~ 3-year crack-resistance warranty
